### **GUARANTEE**

While I exercise the greatest care to have all trees, shrubs and plants sold by me true to name and free from disease, and hold myself prepared to replace, on proper proof, all that may prove to be otherwise, I do not give any warranty, expressed or implied, with respect to them. Any and all such goods are sold upon the express condition and understanding that in case any of them prove to be untrue to name, unhealthy or otherwise defective, I shall not be held responsible for a greater amount than the original price of the goods.

All claims for errors, deductions, etc., must be made immediately upon receipt of goods.

Terms Cash, except by special agreement.

Transportation at purchaser's risk and expense. Packing done in best manner at moderate cost. Grades carefully made to a high standard of excellence.

My stock has been examined by our State Entomologist and found to be entirely free from San Jose Scale and other dangerous insects and plant diseases. A copy of the official certificate will be sent to each purchaser.

I have added to my plant a new packing house, 75 x 100 feet, so that all packing is now done under cover.

**ROSA**—

**Spinossissima** (Scotch or Burnet Rose). A low shrub with small leaves and single white or pink flowers. The branches are usually densely beset with slender prickles. The foliage withstands our burning suns, and is persistent during the entire season. It is one of the very best of the rose species.

## HARDY HERBACEOUS PERENNIALS

I have a special contract with one of the most careful growers in the country, permitting to make very favorable prices upon a large assortment. Quotations cheerfully furnished. Send list of wants for estimates.

## IMPORTED SEEDLINGS

The usual assortment of ornamental stocks at the usual prices. Send list of wants for net quotations.

**Retinospora plumosa**

I now have 100 acres devoted to the growing of Ornamental Stock for the critical trade, two packing houses, with a combined floor space of 10,500 square feet, and a frost proof cellar, 35 x 100 feet, with 8 foot walls.

All of my Shade Trees and Evergreens are transplanted at frequent intervals, and in addition are root pruned yearly in August, as are nearly all my Shrubs. It is my custom to give ample room in the Nursery rows to allow for the development of each individual plant, so that nearly all of my stock can be best described as "specimens."

An increasing trade is showing its appreciation of prompt service, courteous treatment and choice stock carefully handled.
